

IN THE CLAIMS:

Please amend Claim 36 to read as follows relative to the issued patent that was submitted at the filing of this application:

36. (Currently Amended) The water sculpture of claim 33, wherein the velocity of said flow is sufficient to cause said flow to ascend upward onto said flow surface and said upward rising section thereof, wherein by the force of gravity said flow is caused to return substantially upon itself in a downward arc to [Ax] form a curling or spilling wave.
